Co-Curricular Clubs & Societies

Clubs & Societies at WCGS

At Wallington County Grammar School, education doesn't stop at the classroom door. We believe that co-curricular activities are vital to your child's development, which is why engagement in clubs and societies is a core part of daily life here—from their first day in Year 7 right through to the Upper Sixth.

Unlike many schools where clubs happen after hours, we build them directly into our daily timetable. All year groups have a dedicated "Clubs & Societies" period twice a week, ensuring every student has the time to explore new passions without impacting their commute.

Run by both staff and senior students, our clubs cover a huge range of interests:

Academic Extension: Societies like Physics and Maths allow students to explore subjects far beyond the standard curriculum.

Skills & Competition: Our Debating Society and Chess Club are incredibly popular, with many students going on to compete at a national level.

Just for Fun: Whether it's building tech in Robotics Club or discussing lore in the Star Wars Society, there is space for every student to do what they enjoy.

At the start of the academic year, we host our popular **Clubs & Societies Fair**. This is a fantastic event where your child can browse what's on offer and sign up for the activities that spark their interest.

To see our current schedule, please visit the school website under **Learning > Co-Curriculum**.
